Our friend, Dan Woodard, was raised in a Christian home with six unspoken rules: *don't talk, don't feel, don't trust, don't think, don't choose and don't change.*

In his tenth year of ministry he discovered these are also the same rules of every alcoholic home. He has recently co-authored a book, *Let's Break the Rules—Because Healthy Relationships Matter*. We've asked him to make a presentation of the book. He and his co-author Dr. Dan Reinhardt will give an overview of the six rules that need to be broken to have healthy relationships. This is not just a book promo. You will take something away from this presentation for your marriage, family, church, and organization.
