

## SHORT TERM CONNECTION ASSOCIATION OF NORTH AMERICAN MISSIONS

**Short-term opportunities have grown exponentially over the past 40 years.** The world is getting smaller through the internet, speed of travel has made world-wide exposure to missions a reality, the post-modern “experience oriented” generation wants involvement, and we believe that the Holy Spirit, the motivator of missions, is directing it all!

The **short-term participant** benefits through personal involvement in missions. The opportunity to “see themselves in missions” as they seek to determine God’s will and the interaction with those of another location or culture will greatly enrich their lives.

The **sending agency** has opportunity to accomplish special projects (construction, evangelism, and discipleship) and can observe potential missionaries in action.

The **church** always grows as members are active in service. Missions become a reality as “their people” become involved.

**Many times, short term is the FIRST STEP.** Please consider these opportunities in North America. May God bless you!

***NOTE:** The information contained here is provided as a service to the ANAM member missions and to those who are interested in short term service. It is our intent that all information included here remains correct, but needs may change from time to time. As you contact the mission, other information will be provided such as their distinctive application process, insurance requirements, specific lodging and meal arrangements, and cultural issues. Please make all inquiry to and arrangements with the mission agency.*
